

## Kehrwieder ü.NN Premium Alkoholfrei IPA Less than 0.5% Alcohol

From master craft brewer, Oliver Wesseloh in Hamburg comes ü.NN India Pale Ale (IPA) alkoholfrei. The first German non-alcoholic IPA. A dry hopped non-alcoholic IPA that has the traditional its light and refreshing character of IPA.

The alcohol is not removed, a special yeast is used that can only ferment very few of the sugars that are available in a regular beer wort. ü.NN will start fermenting like a regular yeast but runs out of food just before it has produced 0.4% abv and unfiltered.

The beer smells surprisingly fruity with hints of mango, lime and pineapple. It pours with a good head. It is a nice golden colour and cloudy, - looks great in a glass! It is not overly hoppy and is strong on bitterness, with a hint of the fruitiness that was evident on the nose. It's not watery at all and has a lasting finish.

ü.NN stands for überNormalNull meaning above sea level reflecting this beer's origins in the port town of Hamburg in Germany.

In the 18<sup>th</sup> century British brewers exported pale ales to India. They became popular among East India Company traders and consumers regarded them highly. These pale ales became known as India Pale Ale. **Winner: Gold medal** – 2018, European Beer Star, category: alcohol free top fermented, Germany. **Silver medal** – 2017, Alkoholfrei IPA, Meininger International Craft Beer Awards, Germany.

ü.NN IPA contains 32 kilo calories per 100 ml serve and has 0.4% ABV. It is sold in 330ml bottles in cases of 24 bottles.
