

Rhubarb & Ginger Gin style botanicals 0.0% ABV

From Spirits of Virtue in Scotland comes a new and unique range of ultra-premium non-alcoholic botanical spirits, available in either the NoSinGin or Gin Botanicals bottles and labels.

Sharp Rhubarb and warm Ginger blend smoothly with Juniper and Cassia for the perfect botanical spirit experience. Heady Rhubarb & Ginger back notes float over the quintessential classic gin flavours.

The quality and provenance of the ingredients combined with the production process deliver a mouth feel and taste that is superior to other non-alcoholic spirits.

Using a process of distillation, maceration fermentation, steam extraction and inventive alchemy, these botanicals give all the taste sensation of a quality handmade small batch gin, without the alcohol.

Serve with ice and a slice of lemon or with premium tonic or ginger beer, for the good moments in life, without the alcohol.

Gin Botanicals and NoSinGin contain 0.0% ABV, 0.0% sugars and 0.5 kilo calories per 100 ml serve. They are sold in 700 ml cork top bottles in cases of 6 bottles.

Consume within 90 days from opening.
