

Road Runner Alkoholfrei Coffee Stout Less than 0.5% ABV

From master craft brewer, Oliver Wesseloh in Hamburg creator of the sensational ü.NN IPA alkoholfrei comes Road Runner, a premium non-alcoholic coffee stout.

Road Runner is a perfect fusion of non-alcoholic beer and coffee, with beans sourced directly from the coffee growers and roasted in Hamburg.

The alcohol is not removed. A special yeast is used that can only ferment very few of the sugars that are available in a regular beer wort.

Road Runner initially ferments like a regular yeast but then runs out of food just before it has produced 0.4% ABV. It is also unfiltered.

Road Runner has an aroma that is malty with a light acid and deep chocolate, blended with a good background of coffee. Best enjoyed at 12° C.

This Coffee Stout alkoholfrei contains 32 kcal, 3.4 g of sugars and 6.8 carbs per 100 ml. It comes in 330ml bottles in cases of 24 bottles with 4x6 packs.
